DETAILED ACTION

Response to Amendment

1. The amendment to the claims filed on 3-01-04 does not comply with the requirements of 37 CFR 1.121(c) because Applicants have made multiple changes to the claims that are not indicated by either bracketing, underlining, or strike-through. For example, amended claim 1 by deleting the phrase "two overlapping heat shock elements," in lines 5-6, and inserting the phrase "there are no heat shock elements." However, the deletion of the phrase "two overlapping heat shock elements," was not indicated by either bracketing or strike-through. Additionally, the insertion of the phrase "there are no heat shock elements," in claim 1 was not indicated by underlining. In claim 8, lines 2-3, Applicants have removed the phrase "the overlapping HSE at position -204--190," and have replaced it with the phrase "two overlapping heat shock elements at position -214—190 of SEQ ID NO: 1," yet there are no markings to indicate that this change has taken place. Additionally, there is no support for the range -214—190 in the claims or in the specification as filed. Moreover, Applicants have amended claim 10 by removing the "claim 1" from line 1, and replacing it with "claim 9," and have deleted the sequence "GACACGTAGAATGAGTCATCAC," and replaced it with "SEQ ID NO: 5" in claim 11. Again, there are no markings to indicate these changes. Applicants must review the remaining claims to verify that they comply with the requirements of 37 CFR § 1.121(c). Applicant's amendment to the claims filed after July 30, 2003 must comply with 37 CFR 1.121(c) which states:

(c) *Claims.* Amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions) as indicated in this subsection, except when the claim is being canceled. Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of

all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: (Original), (Currently amended), (Canceled), (Withdrawn), (Previously presented), (New), and (Not entered).

(1) *Claim listing.* All of the claims presented in a claim listing shall be presented in ascending numerical order. Consecutive claims having the same status of "canceled" or "not entered" may be aggregated into one statement (e.g., Claims 1-5 (canceled)). The claim listing shall commence on a separate sheet of the amendment document and the sheet(s) that contain the text of any part of the claims shall not contain any other part of the amendment.

(2) *When claim text with markings is required.* All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of "currently amended," or "withdrawn" if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as "withdrawn—currently amended."

(3) *When claim text in clean version is required.* The text of all pending claims not being currently amended shall be presented in the claim listing in clean version, i.e., without any markings in the presentation of text. The presentation of a clean version of any claim having the status of "original," "withdrawn" or "previously presented" will constitute an assertion that it has not been changed relative to the immediate prior version, except to omit markings that may have been present in the immediate prior version of the claims of the status of "withdrawn" or "previously presented." Any claim added by amendment must be indicated with the status of "new" and presented in clean version, i.e., without any underlining.

(4) *When claim text shall not be presented; canceling a claim.*

(i) No claim text shall be presented for any claim in the claim listing with the status of "canceled" or "not entered."

(ii) Cancellation of a claim shall be effected by an instruction to cancel a particular claim number. Identifying the status of a claim in the claim listing as "canceled" will constitute an instruction to cancel the claim.

(5) *Reinstatement of previously canceled claim.* A claim which was previously canceled may be reinstated only by adding the claim as a "new" claim with a new claim number.
